

## FACT SHEET

### TDT30402 – Certificate III in Transport & Distribution (Rail Operations)

A General Qualification for the Rail Industry.

Employees perform a defined range of skilled operations, where some discretion and personal judgement is required within role limitations.

To be awarded this qualification you must attain successful assessment in a total of 21 competency units. This program covers the following units to make up the full qualification, but may be varied to suit job specific roles:

- 6 Generic Competency Units (involving OHS) from a Certificate I level, plus...
- TDTD1097B – Operate a Forklift
- TDTF697B – Apply Accident / Emergency Procedures
- TDTD397C – Handle Dangerous Goods / Hazardous Substances
- TDTD497B – Load & Unload Goods / Cargo
- TDTE701A – Use Communication Systems
- TDTG701A – Work in a Socially Diverse Environment
- TDTD2298B – Conduct Weighbridge Operations
- HLTA1A – Apply Basic First Aid
- TDTE297B – Estimate Mass Area & Quantify Dimensions
- TDTG297B – Lead a Work Team or Group
- BSBCMN310A – Deliver & Monitor Service to Customers
- TDT3198B – Rig Load
- TDTA3901A – Receive & Store Stock
- TDTA297B – Maintain Container / Cargo Records
- TDTE497B – Prepare Workplace Documentation

This program will be offered throughout the ACT & South Western NSW regions; however, if there are enough students interstate we have the ability to negotiate delivery terms with you regarding your specific location requirements.

Assessment of each unit will take the form of a combination of the following:

- Portfolio of Documents
- Supervisor's Checklist (verifying your work)
- Team Member's Checklist (supporting your work)
- Workplace Projects (proving your skills and knowledge)
- Answers to Underpinning Knowledge Questions

Your assessor will also monitor your general subject knowledge.
