

FACT SHEET

TDT30202 – Certificate III in Transport & Distribution (Road Transport)

A General Qualification for the Road Transport Industry. Employees perform a defined range of skilled operations, where some discretion and personal judgement is required within role limitations.

To be awarded this qualification you must attain successful assessment in a total of 21 competency units. This program covers the following units to make up the full qualification, but may be varied to suit job specific roles:

- 7 Generic Competency Units (involving OHS) from a Certificate I level, plus...
- TDTD397C – Handle Dangerous Goods / Hazardous Substances
- TDTD1097B – Operate a Forklift
- TDTB497B – Carry out Vehicle Inspection
- TDTD497B – Load & Unload Goods / Cargo
- TDTE701A – Use Communication Systems
- TDTG701A – Work in a Socially Diverse Environment
- TDTH197C – Interpret Road Maps & Navigate Predetermined Routes

- TDTA1597B – Complete Receipt / Despatch Documentation
- TDTC497C – Drive Heavy Rigid Vehicle
- TDTF1097B - Apply Fatigue Management Strategies
- BSBCM310A – Deliver & Monitor Service to Customers
- TDTF697B – Apply Accident / Emergency Procedures
- TDT3198B – Rig Load
- TDTF397B – Implement & Monitor OHS Procedures

This program will be offered throughout the ACT & South Western NSW regions; however, if there are enough students interstate we have the ability to negotiate delivery terms with you regarding your specific location requirements.

Assessment of each unit will take the form of a combination of the following:

- Portfolio of Documents
- Supervisor's Checklist (verifying your work)
- Team Member's Checklist (supporting your work)
- Workplace Projects (proving your skills and knowledge)
- Answers to Underpinning Knowledge Questions

Your assessor will also monitor your general subject knowledge.
